

Laurel Highlands High School

FCCTI - Fayette County Career and Technical Institute

Students:

*As you know, the pandemic has not only had a global impact, but it has impacted education as a whole. The district has implemented a plan to bring some normalcy to most students. Classes will begin on Monday, August 31st. Laurel Highlands is currently running a 4-day face to face (Mon/Tues/Thur/Fri) and 1-day (Wed) remote learning schedule to start the school year. **The remote learning day does impact FCCTI students since the FCCTI is an on-hands learning program.** On Wednesdays, CTI students will report to the CTI for the half-day on-hands learning. If necessary, transportation will be available.*

On Wednesdays, AM CTI students (mainly sophomores and juniors) will report to the high school by 7 AM for the bus to take them to the CTI. If necessary, students can also ride the bus to school. The bus company will be contacting you to determine if you need transportation provided by the district. Students will leave the CTI and students will be transported home unless they have their own transportation.

PM CTI students (mainly seniors) will need to report to the high school by 11 am for the bus to take them to the CTI. If necessary, students can also ride the bus to school. The bus company will be contacting you to determine if you need transportation provided by the district. Students will leave the CTI and students will be transported home unless they have their own transportation.

This year, however, due to the extreme circumstances, the **FCCTI will be allowing students of any grade level to drive to the CTI.** If you are interested in driving your own vehicle to the FCCTI, you must complete a FCCTI Driving Application 2020-2021(<https://fayetteteci.org/driving/>). The driving application is located on the middle right side of the Fayette County Career and Technology Institute's home page (<https://fayetteteci.org/>). There is no parking application fee at the FCCTI.

Finally, on Thursday, August 20th at 9 AM, Mr. Barron will be meeting with all CTI students in the high school auditorium to review the schedule and discuss transportation for the start of the school year. Please plan to attend. Masks are required.

If anything changes, we will notify you as quickly as possible.

Thank you for your understanding,
