

## ACCESSING GOOGLE CLASSROOM FROM YOUR GAMING DEVICE

Google Classroom can be opened on Xbox and Playstation. There is not an app that you need or can add to your consoles. Instead, you are going to have to use the built-in browsers that come on the two devices.

### On Xbox - Microsoft Edge

### On Playstation - "www" browser

Once the browser has been opened:

1. Type in [classroom.google.com](https://classroom.google.com) in the URL bar.
2. A prompt for a Google account will appear.
3. Type in your school district email and password – it doesn't end in [google.com](https://google.com) and that is ok!
4. The Classroom home screen will open up.

C. If you have a keyboard, you can connect it to your device for an easier way to type and navigate the platform. Otherwise, you will have to use your controllers to click on the classroom tiles, open up assignments and type.
